

High-performance labels LabelWriter®; for DYMO® label printers

LW Labels with industrial adhesive for secure, permanent adhesion to many surfaces, such as paper, plastic, metal, wood, and glass. A protective layer prevents peeling and abrasion caused by moisture, acetone, alcohol, and conventional cleaning agents.

- Scratch and tear resistant plastic material
- Label printing with direct thermal printing technology
- Pre-assembled labels for quick and easy application
- Moisture resistant
- BPA-free
- Temperature resistant from -18 to 50 °C
