

behrotest^{®} water samplers

For sampling from the water surface.

Adjustable clamping device and end rod made of stainless steel, with choice of sample container as indicated. For sampling in accordance with DIN 38409 to H14/AOX a 1 litre borosilicate beaker is required. With 3-part handle, which is continuously adjustable between 1 and 3,75m. Ideal for use at sites which are difficult to access.

Type	Description	PK	Cat. No.
PB 1000	With boro glass beaker	1	9.920 630
PF 1000	With dispensing bottle	1	9.920 631
