

Gauge THERMOVAC TTR 91 RN

The gauge is equipped with the latest filament pirani technology to enable robust pressure measurement. The integrated filter protects the gauge from particle contamination. The LED light rings not only display basic information, but also indicate the pressure range.

- Compact size
- Easy maintenance without tools
- Filament made of tungsten
- Analogue output 0 to 10 V
- Connection plug RJ45/FCC68
- Flange KF DN 16

Power supply: 15 ... 48 V · DC
IP code: IP 40
